Financial Success with
Trusted Solutions &
Innovative Tools.**

Company Introduction

About us

Our Mission

Our business model is tailored for large multi-sited clients and remains the preferred choice for consultants, suppliers and service providers in core and ancillary services. As a privately owned independent company we focus on delivering outsourcing, smart sourcing or licensed services.

Our Vision

We provide cutting-edge support in all activities related to your energy and water supplies, from assessing your financial exposure, to align procurement activities to your target and risk policies. Through a robust data modelling approach, we sustain all key activities of validation and cost monitoring within your carbon and compliance objectives. Our innovative and technological approach ensures improved efficiency, transparency and cost reduction, making us a trusted partner in navigating the complexities of the constantly evolving utility sector.

Our client services and solutions are underpinned by our unique proprietary technology developed by industry experts to turn data into intelligence through user friendly interfaces.

“udintel has been by my side since the beginning, a constant presence in Eden's evolution. Their friendly and competent approach....(more).

Mark Chipol – CEO – Eden Utilities Ltd

“udintel is the partner of choice for start-ups and fast-growing companies like ours. Their comprehensive support across critical utility market products is unmatched...(more).

Stephen Cross – Director – Liberty Utilities Ltd

“I wholeheartedly trust udintel as our long-term business partner. Their creative solutions and unparalleled team ethos consistently support our business requirements. With a commitment to the highest standards... (more)

Rob van Leeuwen - Group COO - eEnergy PLC

Products

As a neutral extension to your company, we take full responsibility for your utility supply management and identify all aspects that impact on your utility contracts. Our automated technology applications report on all aspects of your supply chain, including assessing all cost saving opportunities, water and energy audits and cost reduction.

Supply points

We leverage a highly automated, technology-driven process to deliver exceptional results for our partners. Whether as an **outsourcing partner** providing fully delivered solutions, or as a **portal provider** offering licensed access to advanced utility platforms, we adapt to the needs of our clients with flexible, scalable solutions.

Core Roles

- PROCUREMENT PARTNER**
for tenders ,trading and mark to market
- BUREAU PARTNER**
for next-gen utility finance, budgets and validation
- SOFTWARE PROVIDER**
integrated CRM, CMS, bureau, tender and trading
- AGGREGATOR**
for collective purchasing and tender activities

Saving generated across 24 months

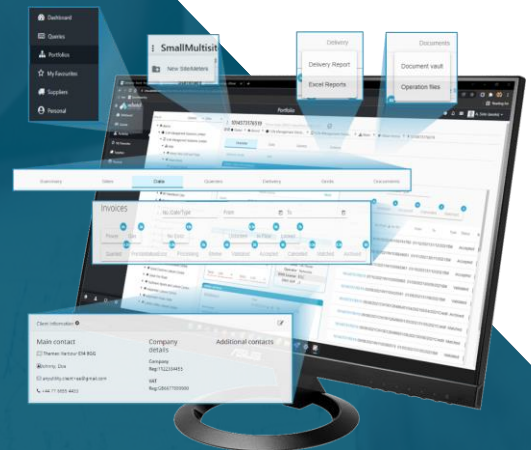

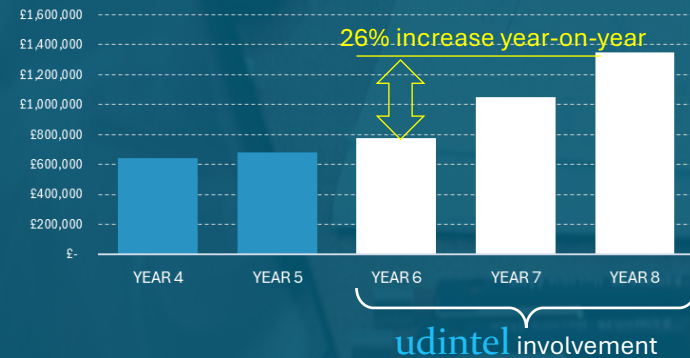

Case Study – End User

Whilst supporting a large retailer in the role of technology partner and utility advisor, we delivered in excess of £8.5m savings over a two-year period whilst liaising with their Treasury, Finance and Property departments.

Case Study - Broker

Consulting with a traditional Third Party Intermediary (TPI) we deployed a full range of services supporting the needs of complex users and removed process inefficiencies resulting in increased cash generation.

Annual profit

Why Choose udintel

Since 2013, we've empowered utilities, TPIs, and brokers with services and solutions, all built on our in-house technology and delivered by teams of specialists with optimised techniques. Our expertise and commitment to innovation enable our clients to optimize performance, reduce costs, and achieve sustainable growth. Let's **Grow Together**: Partner with us to stay ahead in the energy market. Contact us today to discover how we can help you navigate the complexities of the industry and unlock new opportunities for your business.
